Cummings Wiss.

Cummings Won in straight sets over the San Francisco champion by scores of 6-2 and 6-1. Cummings is due to meet Horrell this afternoon and the match should be one of the best of the whole tournament. Horrell has been going strong and his match with Cummings is certain to draw one of the biggest galleries of the tournament.

He will bump into N. A. Ferguson, of the Smelter club, some time today. Ferguson was runner my to adorrell last year and is a slight favorite over the army officer but the match should be a good one.

Mrs. Lellaron Takes Singles.

There was but one match in the women's singles Friday but it was one of the best matches of the tournament, mrs. George R. LeBaron opposed Miss Edma Scotten and it took three long nets to decide the right to outer the semi-finale, Mrs. LeBaron finally winning the decision.

"BECK'S" AMEN CORNER

SOME Douglas fans are considerably worked up by the statement that Douglas was responsible for forcing Las Cruces out of the Rio Grande league. One fan writes in and declares that Douglas did not want league ball. We know that now. He also wants to know what became of the \$60 guarantee per game paid the Douglas club for the of fact, that \$660 was paid over to Bert Aaron, business manager of the team, and spent in traveling and hotel expenses. It is plain now that Douglas cannot support league ball at the present time and that it was a serious mistake in placing a club there. However, it is over now and no one bears Douglas any particular ill-will. The object of the writer in correcting the Douglas statement that it was Las Cruces that first dropped out was to set the valley city square before the fans for Las Cruces would have gone through, had Douglas done so.

JOHN J. McCLOSKEY was in from Tucson on Friday and states that both Tucson and Phoenix are supporting league ball in a way that warms his heart. The only weakness in Brown's team is reported around jhird base and he is going to atrengthen that hole. The fans of the two Arisona cities have the pennant fever and every victory over the eastern teams is an occasion for

"WHY did they take the 1916 Border States tournament to a 'dry' city-why, I ask you?" queried one of the delegates on Thursday evening at the tennis dinner. And he comes from Arizona himself. But you can search me.

ALBUQUERQUE wants a slight change in the new four-team schedule of the Rio Grande league. Albuquerque wants to open at home on June 8 with Tucson and it may be that some dates will be shifted to accommodate them.

BASEBALL fans of this city will have plenty to amuse them Sun-day. The Las Cruces leaguers will play the 16th infantry at Rio Grande park at 3 oclock while the Commercial league clubs will have two games at Washington park, starting at 2 oclock.

If the Alboquerque club gets its way, that Turson will be at Albuquerque on June 5 to 11, while MI Paso is at Phonix. The following west Turson would come to El Paso, while Phoenix would no to the Duke city. The change cannot be effected without a considerable increase in railway transportation and would also deprive Albuquerque of the July 4th dates it so badly wants.

The first batch of official averages should be randy for release about next Wednesday. There has been some delay in accuring the figures of the instactes at Douglas and this has beld up the averages. It is believed that the Albaquerque club leads in both team batting and team fielding.

The service and net play of Davis stamps him as a Californian accustomed to the high rise of the ball from asphalt. Both departments are developed to a high standard of excellence due to the added stimulus of meeting asphalt playing conditions. But like the other Californian experts, the use and disture theory is fillustrated in watching the back court game. Not needing particular skill in that department of the name while playing on asphalt, he never saw fit to develop it. His forchand drive is performed in a manner after the style of Murray. On the receiving of an opponent's service he tries for a clean see of a miss, believing firmly that he can win his own service and so keep the game balance until his opportunity to brook through for the advantage game is of-

PHILADELPHIA, Pa. May 22.—Wilty Has E Davis, the University of Pannsylvania student, has leaped into national tennis fame by his triumph over Wallace P. Johnson in a three set match. He differs from other tennis phenomena from California in not having come cast with his reputation already made. He was no better known in his native state than here until recently.

With nearly all Californians is associated the camoniball service with lightninglike volleys and ground strokes. The minute that luvis begins to play one is impressed with the samilarity of his style as compared with the prominent players from the Samet and the court. There is a general Facific coast atmosphere pervailing his very attitude on the court. When he throws the isaling into the air on his nervice and makes the sharp contact ever the upper period of the face of the racquel in order to go the prominent territory is immediately followed by the close Californian sover of the net in order to got down the return at a sharp angle. The high tob is not considered in the cool, deliberate manner of the eastern player, but is met in the same way as the service hall—with a clean, sharp follow through, to emphasize the design of Davis Stanne lim as a Californian accustomed.
